

Wipac launch the new 7" free form reflectors

Wipac have launched an exclusive light unit for the UK. They are available with and without sidelight and are the only light units on the market that are road legal.

Give your vehicle an instant make over by replacing your old RHD 7" headlights with new free form units. View them online and find out where to purchase them using the Wipac Official Distributor listing. Search the site using the relevant part number or navigate through the mini and Land Rover/4x4 sections.
