RELEASE

## Exclusive LED Daytime Running Light (DRL)

This LED DRL has been designed by the Wipac OE team and is exclusive to Wipac alongside our Ultra brand. Audi have led the way in LED Daytime Running Lights with the R8, A5 and A4 Models - that is until now. Measuring 220mm long, the curvaceous design compliments the vehicles own body-lines. Fully E Marked and road legal within the UK and Europe, the DRLs are universal fitting to any 12/24V vehicle. Each unit, filled with the very latest diode technology, features 7 LEDs - each within their own individual reflector pockets. They out-perform, out-style and are light years beyond any other available on the market.
